

THE EDGESAFE® SAFETY RAILING IS COMPATIBLE WITH YOUR PRODUCT.

UNIVERSAL. OMNIDIRECTIONAL. CUSTOMIZABLE. THE ONE-OF-A-KIND EDGESAFE® SAFETY RAILING MAKES OTHER RAILINGS OBSOLETE.

The incredibly customizable EdgeSafe® Safety Railing serves as the foundation for a complete safety system in your facility. By utilizing a universal, omnidirectional bracket, this safety railing is flexible enough to address almost any application (unlike a typical straight or 90-degree railing) and adaptable enough to follow virtually any required angle! The EdgeSafe Safety Railing is easy to assemble and simple to install.

WHAT SETS THE EDGESAFE SAFETY RAILING APART?

CUSTOMIZABLE: Order any combination of horizontal rails, vertical posts, railing brackets or toeboards and easily adjust to any angle; construct the exact railing at the exact length you need. Simply trim the horizontal rails to fit your opening.

Notes on sizing:

- Maximum width between posts: 89"
- Height to the top of the top rail: 43-5/16"
- Height to the center of the mid rail: 21-7/8"

CONFORMS TO ANY ANGLE: The omnidirectional bracket means you're not restricted by 90-degree angles.

UNIVERSAL POST: Use all/any four sides of the post; one post does it all; no need for different corners, end posts, etc.

CODE COMPLIANT: OSHA 1910.29, ANSI A1264.1-2017, and Canadian COHS guardrail requirements SOR-86-304 Sections 2.12 and 2.13.

PERFECT FOR:

- Ground-Level Area Protection
- Machine Guarding
- Mezzanines / Elevated Edges
- Traffic / Pedestrian Control
- Perimeter Guarding / Restricting Access

*Floor mounting hardware not included

EDGEHALT®
Adjustable Safety Gate

- Slam-Proof® technology
- OSHA, ANSI and CE compliant
- 18" adjustment range

EDGEHALT®
Ladder Safety Gate

- Slam-Proof® technology
- Springs guaranteed for life of gate
- 10" adjustment range

EDGEHALT®
Posi-Stop Ladder Safety Gate

- Slam-Proof® technology
- Springs guaranteed for life of gate
- 10" adjustment range

EDGEHALT®
Posi-Stop Double Ladder Safety Gate

- Slam-Proof® technology
- Springs guaranteed for life of gate
- 10" adjustment range

EDGEHALT®
Aluminum Ladder Safety Gate

- OSHA and ANSI compliant
- Ideal for corrosive environments

EDGEHALT®
Full Height Ladder Safety Gate

- OSHA and ANSI compliant
- Toeboard for increased edge protection

EDGESAFE®
Smart Gate

- Slam-Proof® technology
- Patents pending
- Code compliant

EDGESAFE®
Personnel Access Gate

- Swings bidirectionally (both ways)
- 27" adjustment range
- 8.5" x 14" area to affix warning signage

PICKSAFE™
Finger Gate

- Self-closing
- Ideal for pallet flow or rack picking stations
- OSHA and ANSI compliant

EDGESAFE®
Pedestrian Awareness System

- Attention-grabbing LED lights alert forklift drivers to pedestrian traffic
- 100% customizable

SAFEMEZZ360™

- Slam-Proof® technology
- OSHA and ANSI compliant
- Custom widths and heights available

SAFEMEZZ®
Horizontal Gate

- OSHA compliant
- Manual or automated operation
- Custom widths available

SAFEMEZZ®
Vertical Gate

- OSHA compliant
- Manual or automated operation
- Custom widths and heights available

SAFEMEZZ®
Downward Gate

- OSHA compliant
- Pneumatic/electric or pneumatic/pneumatic operation
- Custom widths available

SAFEMEZZ
Pallet Gate

- OSHA compliant
- Self-closing
- Custom widths available
