

CAPABILITIES STATEMENT

COMPANY DATA

PS Flood Barriers™ is a division of PS Industries® Incorporated, an industry-leading manufacturer of flood protection products, industrial doors (PS Access Solutions™), safety/fall protection products (PS Safety Access™) and customized doors, hatches and barriers that mitigate unforeseen risks (PS Public Protection™) for more than 50 years. With custom fabrication capabilities, we serve a wide variety of industries, including the military, energy, agriculture, food processing, and all types of manufacturing.

PS Flood Barriers' foundation is built on innovative design, solid engineering and high-quality manufacturing. In 1997, we learned about the incredible power of water firsthand during the Red River's disastrous flood in our hometown of Grand Forks, ND. We put those lessons to good use, and today we have a host of flood barrier products to protect facilities, critical infrastructure and assets from devastating flooding.
